

MATADOR SUPER

For the Use of a Registered Medical Practitioner or a Hospital or a Laboratory Only

Taurine, Inositol, Gluconolactone & Vitamins soft gelatin capsule

MATADOR™ Super

COMPOSITION

Each soft gelatin capsule contains:

Taurine	1000 mg
Gluconolactone	300 mg
Inositol (As Inositol Nicotinate)	25 mg
Nicotinamide (Vitamin B3)	9 mg
Calcium Pantothenate (Vitamin B5)	3 mg
Pyridoxine HCL (Vitamin B6)	2 mg
Cyanocobalamin (Vitamin B12)	1 mcg

Approved colour used in capsule shell.

Appropriate overage of vitamins added to compensate for loss on storage.

OTHER INGREDIENTS

Gelatin, glycerin, edible oil, purified water, butylated hydroxy anisole, permitted food colours, Class II preservatives, emulsifying and stabilising agents.

DESCRIPTION

Disease states leads you in a state of debility and feeling easily fatigued or exhausted, physically weak and experiencing burn out. It is most commonly associated with recovery from physical illness or injury, it also affects those suffering from cognitive or emotional problems such as severe depression or stress. Matador™ Super has all the elements to provide a burst of energy in such case and also maximizes physical growth and strength

- Taurine increases muscle contractility (the force with which muscle cells pull together) in both skeletal and cardiac muscle. That means more powerful workouts as muscle works harder. Taurine also helps exercising muscle to get rid of lactic acid itself. Lactic acid is what causes the feelings of pain and soreness and is what limits how much a muscle can continue to work. By cleaning up lactic acid, taurine helps muscles work longer. Taurine protects muscles from damage, so muscle works more safely
- Gluconolactone is a lactone or oxidized derivative of glucose which is the most important source of energy for cellular respiration. It also has excellent antioxidant property
- Inositol nicotinate mediates a vasodilatory, lipid-lowering and fibrinolytic effect on the cardiovascular system. Like other niacins, inositol nicotinate is a lipid-regulating agent that reduces the levels of plasma triglycerides, atherogenic apolipoprotein B (apoB)-containing lipoproteins (VLDL, LDL and lipoprotein a) while increasing antiatherogenic apoA-I-containing HDL levels

Matador™ Super also contains:

Vitamin B3 (Niacin): Essential for energy production, proper brain function, healthy skin, and regulation of blood sugar and cholesterol levels.

Vitamin B5 (Calcium Pantothenate): Stimulates hormones, relieves stress, improves heart health, builds stamina and boosts immune system.

Vitamin B6 (Pyridoxine): Essential for production of red blood cells, and a healthy nervous system.

Vitamin B12 (Cyanocobalamin): Essential for a healthy nervous system, energy production, red blood cell production, growth, maintenance, and cell growth.

INDICATIONS

Matador™ Super supplementation is believed to be beneficial in:

- Maintaining and retaining energy levels
- Retain mental alertness and focus
- Attention deficit-hyperactivity disorder
- Athletic performance
- Postsurgical recovery
- Improve general immunity level and health

DOSAGE AND ADMINISTRATION

One capsule 1-2 times daily or as prescribed by the physician.

CONTRAINDICATIONS

Matador™ Super is contraindicated in those hypersensitive to any of the component listed above.

USE IN SPECIAL POPULATION

Pregnancy and Lactation

There are no adequate and well controlled studies of this formulation in pregnancy. Should be used in pregnancy only if the potential benefit justifies the risk to the foetus. Caution should be exercised because it is not known whether any of the component of Matador™ Super is excreted in human breast milk.

SIDE-EFFECTS AND SPECIAL PRECAUTIONS

Till date, no side-effects have been reported with Matador™ Super. Special precaution should be taken in following cases:

Taurine: Taurine might have an effect like a water pill or "diuretic." Taking taurine might decrease how well the body gets rid of lithium. Talk with your healthcare provider before using this product if you are already taking lithium.

Vitamin B6 (Pyridoxine): Reduces the effects of levodopa.

OVERDOSAGE

In case of overdose, symptomatic and supportive treatment is indicated.

PRESENTATION

10 soft gelatin capsules in a strip and such 10 strips in a box.

STORAGE

Store in cool, dry and dark place. Keep out of reach of children.
